

Do you or someone you know need support with alcohol and other drug use? Are you able to get a referral from a GP or health professional?

Alcohol and Drug Liaison Outreach Workers (ADLWs) help people who aren't yet connected to community alcohol and drug services

We provide short term support and case management and help you connect to appropriate services, such as counselling, rehab, or others that meet your needs

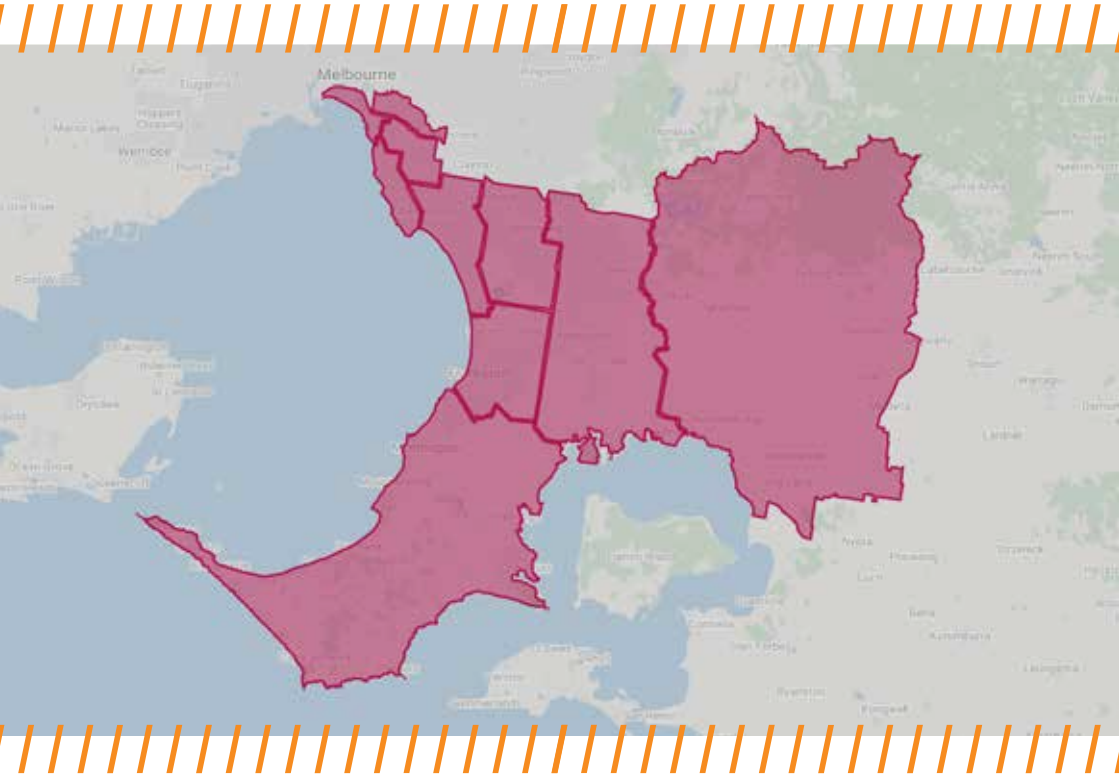

We will contact you within 48 hours for a comprehensive assessment, and will work with you to develop an individual treatment plan to meet your goals

And we'll stay engaged with you until you're fully connected in to secure, longer term drug and alcohol support

TaskForce
